Global Stock Lending

November/2009

From the Founder

Where did the year go? I swear only yesterday we were worrying about the end of the financial world and preparing our boat for the Annapolis to Newport Race. Actually that was in April and May. So what happened this summer?

As you know, the financial system has indeed survived and even thrived since Spring. Our racing team took 5th place in our division in the regatta and we are now looking forward to the Newport to Bermuda race next summer. So overall there is not a lot to complain about.

Looking backward is always easier than looking forward, or at least much clearer. After two tumultuous years of dramatic market declines and rally's, does anyone know what to expect in 2010?

What I do know is that there are lots of wonderful opportunities to put cash to work right now. Our clients have taken advantage of opportunities in real estate and private

Client Testimonial

businesses by borrowing against their stock holdings. This way, they are well positioned no matter what the market does while investing cash at very favorable rates into new areas.

I recently had the pleasure of doing business with Global Stock Lending Direct to acquire a loan against my stock portfolio. I tend to be a very detailed person and ask a lot of questions so that I can make an educated decision.

Roel Hoekstra and his team at Global Stock Lending Direct did an outstanding job answering all of my questions and concerns, being very patient explaining all of the details of the loan, and were extremely professional through the entire process.

I highly recommend Roel Hoekstra and Global Stock Lending Direct for anyone looking to borrow using their stocks as collateral. They do an excellent job working with you to find the best loan program available on the market. It is a great opportunity to leverage your portfolio while at the same time having protection if the stock plummets or goes up substantially.
